NOTE: The following steps must be completed within 1 minute. Settings will be automatically stopped after 1 minute passes since the last operation and steps 2 through 4 will have to be repeated.

1 Use the remote codes listed in this document to find your TV manufacturer code.

2 Press the Code Set button on the remote using a small pointed object such as a ball point pen or small paper clip.

3 Press the TV Power button on the bottom of the remote.

4 Enter in your TV remote control code using the Numeric Keys on the remote control.

Once the remote control code is registered successfully the Transmit light will blink twice. If the Transmit light blinks more than twice the code registration has failed. Steps 2 through 4 will need to be repeated.

If multiple control codes exist, start with the first one on the list. If it does not work, cross it off and try the next code until one works.
