

### Appendix 3N FIA Tree Species Codes

This list includes all tree species tallied in the Continental U.S., Alaska, and the Caribbean. – modified for the North. Species designated East/West/Caribbean are commonly found in those regions (East includes NRS and SRS and West includes PNW and IW), although species designated for one region may occasionally be found in another. Woodland species designate species where DRC is measured instead of DBH. Species that have an "X" in the Core column are tallied in all regions. All other species on the list are "core optional". The North tallies all Core and "core optional" species.

NRS Note: Not all tree species are listed in this table that may occur in the North. If not listed, invasive tree species are tallied using species code 0999. The use of code 0999 requires a tree NOTE with the species identified. Dead trees are coded in the following order of identification hierarchy: Species code, Genus code, 0299 or 0998, or 0999.
