With a 22mm spanner, rotate the crank clockwise to align the TDC mark on the crank with the timing mark on the top cam pulley and the bottom belt drive pulley. Remove the Timing belt idler pulley and the Timing belt. If reusing the timing belt, mark with a paint pen the direction of rotation so you can install it back the same way.

Does Timing Belt need to come off to replace Water Pump ...

Re-aligned the 2 timing marks which I had marked (I always use my own marks on Landcruisers without turning any pulleys) and fitted the belt, turned the crank by hand but it will only turn 90degrees or so before it locks The engine has NOT been started or even attempted. The pump pulley or crank was not moved whilst belt off.
