Slide 4 01Chapter Indices and Standard Form 1.440 00 x 10⁸ km 25.4 x 10⁻⁶ m These numbers are called INDICES. We make use of INDICES to represent extremely LARGE or small numbers. INDICES saves us from writing long string of digits, saving time and effort, and reducing the chance of missing out digits.

Indices and standard form - SlideShare

Small numbers can also be written in standard form. However, instead of the index being positive (in the above example, the index was 3), it will be negative. The rules when writing a number in standard form is that first you write down a number between 1 and 10, then you write × 10(to the power of a number). This video explains standard form ...

Standard Form - Mathematics GCSE Revision

Standard form, or standard index form, is a system of writing numbers which can be particularly useful for working with very large or very small numbers. It is based on using powers of 10 to ...
