On the surface of it, one would be hard pressed to believe that a Stock 283 Chevy, with an actual displacement of 293 cubes, breathing through 1.72-inch intake valves, with lift restricted to a ...

NHRA Legal Stock Eliminator 283 Chevy - Engine Masters ...

It would also get over 20 mpg. I am contemplating taking my extra 305 block and finding a 3" crank and building a "late" model 265. I'll use a tuned port and World Products heads and a hyd. roller. A 283 in '57 would make 1 H.P. per c.i. and that should be no problem with all the new products out there now.

high performance 283???? - Club Hot Rod Forums

Today's hot topic of discussion in the world of high-performance is whether or not a Chev, 283 small block is still a valid platform for a hi-po motor build. My general rule of thumb when it comes to engine building is that small-displacement makes for sky-high revs , but torque and bottom-end are often sacrificed in this process, and so a paradox exists within the science of engine-building.

Why or why not to build a Chev 283...

When it comes to cranking serious torque from the classic Small-Block, it's hard to beat the 383 stroker combination, which uses a long, 3.800-inch stroke with 4.005-inch bores to generate exceptional low-end pulling power and surprising high-rpm horsepower.
