The Science of HIV/AIDS

College students appear to be very knowledgeable about HIV / AIDS. Knowledge of HIV and safe sex practices appear to be greater among men than women. Males who were more knowledgeable about HIV / AIDS reported less intercourse and said they were more likely to use condoms.

## UNIVERSITY OF STELLENBOSCH HIV/AIDS POLICY FOR STUDENTS 2003

The ground usually covered by medical courses in embryology is presented on the basis of systems of organs. It would serve well as an examination aid to students who have come into personal contact with embryos. Without such contact, embryologic study is worthless as a discipline and of little or no practical value.
