Bmw N54 N55 Engine

The BMW N55 is a turbocharged straight-six petrol engine that began production in 2009. The N55 replaced the BMW N54 engine and was introduced in the F07 5 Series Gran Turismo. The N55 was BMW's first straight-six engine to use a twin-scroll turbocharger. It also won three straight Ward's 10 Best Engines awards in 2011-2013.

BMW N55 - Wikipedia

BMW ' s N54 and N55 engines are similar in many aspects and stock-for-stock perform almost identically. The N55 twin-scroll turbo offers slightly faster turbo spool and delivers peak torque 100 RPM ' s sooner than the N54; a characteristic that is not noticeable as each turbo set up spools quickly and delivers impressive torque through-out the low end and midrange.

BMW N54 vs. N55 Comparison: Horsepower, Reliability, and ...

BMW N55 The BMW N54 is a turbocharged straight-six petrol engine that was produced from 2006 to 2016. It is BMW's first mass-produced turbocharged
