Boeing B 29 Superfortress Manual

Title: Boeing B-29 Superfortress The B-29 was designed to a specification issued in 1940 for a very long range trans-oceanic bomber and first flew in 1942. It was much more advanced than the B-17 being fully pressurised with remotely operated gun turrets. In spite of its complexity, size and cost, over 4,000 were built, remaining in operational service until well past the Korean War.
