Carburetors & Carburetor Parts- Briggs & Stratton Online Store

I'm trying to identify the model number of a Mikuni carburettor on my Briggs and Stratton mower motor (1988). The problem is that there is no identifying number or other marks on the carb to help me. The following is all I have "Made in Japan" stamped to the right of the fuel inlet, MIKUNI CORP stamped on the body just above the float bowl and below the idle adjust screw.

Mikuni carb ID and purpose of a brass tube. | Lawn Mower Forum

The 12.5 HP Briggs and Stratton engine has an idle speed adjustment screw below the fuel bowl of the carburettor that can be adjusted in just a few minutes to keep the engine running efficiently. The optimum setting for the carburettor is to run around 1750rpm.

How to Adjust the Carburetor on a Briggs & Stratton 12.5 ...

The Mikuni carb kits are easy to install and you will be impressed when you touch the throttle. These hot new BPS carb kits

BPS Carb Kits - Backwater Performance

The Briggs stock carb on the 18 Hp is about 26 mm on the manifold with a rather restrictive venturi. The 26mm mikuni has a larger throttle passage but should give good throttle response. Its funny the 26 Mikuni is used on a 90cc scooter and you would think it was too small for a 400+ cc 4 stroke. if the 26 is too restrictive i have a 34 to try out.

Mikuni Carb for Briggs Vanguard - 6x6 World

The motor is a Tecumseh H60. I noticed that the carb appears to be a briggs and stratton carb. Appears to be a little mix and match machine. The only numbers I see on the carb is 3570 (top right) and 2518 (top left). After some tweaking and playing with the carb I got the machine running.

Briggs and Stratton Carb Identification - Carb Kit Needed ...

Keeping your Briggs & Stratton mower engine running smooth is no easy task. One area to maintain regularly is the carburettor and linkages. Over time, debris and constant vibration can skew the speed and mixture in the carburettor, which leads to poor performance and black smoke from the exhaust.
