In ZEISS CALYPSO, unlike other measuring programs, these characteristics are also the starting point for programming. Creating the measurement plan is easy to learn, target-oriented and efficient. The geometric features needed for a characteristic, e.g. circles, lines or planes, are managed separately in ZEISS CALYPSO.

The training manual is what the trainees need to join the training and follow its programs more easily. Sure, it must be made by the company or institution that conducts the program training to meet the company and trainers' needs. It is possible also if some companies or institutions conduct one program for all in order to save more money.

Question : Does any know of any training on CALYPSO, like a 2 week workshop or even onlince course or something like that anywhere in Canada or NORTH east US. I learned basic CAD, with mastercam, Autocad, and some little solidworks at school but never worked with CALYPSO and havent worked with toolpaths on a CAD programm since school 5-6 yrs ago.
