Eye contact is a hardwired way to connect with each other as humans. Infants as young as two days old prefer looking at faces that gaze back at them. Most of us don't make as much eye contact as we should, especially while speaking because eye contact makes us self conscious as adults. To level up your conversation skills in a subtly powerful way.

Don't overthink it. It's common for many people to avoid starting conversations with others out of fear they will consider it an interruption or intrusion. This hesitation is often a valid concern, especially considering others' perceptions of time and personal space. Therefore, if an English student feels held back by a language barrier,...
