will help the government counter cyber-attacks in 13 areas of critical infrastructure and take a tougher stance against hacking.

#2. NEW FOCUS ON THE DEVELOPMENT OF CYBERSECURITY PROFESSIONALS.

5 Reasons Why Japan Fell Behind in Cybersecurity

Japanese laws do now allow victims to hack back in retaliation against cyber attackers. Japan cannot even investigate who is doing the hacking under the current law. A law on secrecy and security clearances is a must to work on cyber terrorism and information sharing, which is the fundamental condition for international collaboration.
