Developmental language disorder
(DLD) is identified when a child has
problems with language
development that continue into
school age and beyond. The
language problems have a
significant impact on everyday
social interactions or educational
progress, and occur in the absence
of autism spectrum disorder,
intellectual disability or a known
biomedical condition.

Developmental language disorder -
Wikipedia

Developmental Sentence Scoring
(DSS) is a clinical procedure for
estimating the status and progress
of children enrolled for language
training in a clinic. It is based upon
a developmental scale of syntax
acquisition.
