One of the biggest lessons I've learned is that HVAC design is a lot more than Manual J. Most HVAC contractors, home energy raters, and others in this field know about Manual J. Many people even know about Manual D, which describes how to design the duct system. Not so many, however, know about the missing links - Manual S and Manual T.

HVAC Design Done Right - Manual J, S, T, & D

Manual J and Manual D are recognized throughout the country, touted by the U.S. Department of Energy and required by most building codes. When your HVAC tech follows Manual J and Manual D and then properly sizes your new heating and cooling systems with Manual S, you reap the following benefits:

Manual J, Manual D and Manual S: Why Your HVAC Tech Must ...

Manual D is the ACCA method used to determine the overall duct lay-out including the individual duct sizes. To design a duct system, the HVAC system designer must have completed a Room-by-Room Manual J load calculation as well as a Manual S equipment selection.
