Little's most recent book, Economic and Political Reform in Africa: Anthropological Perspectives (Indiana, 2014), is a comparative study of the local impacts of neoliberal reforms in six African countries. Based on ethnography and survey-based research, it focuses on the contradictions and tensions associated with a set...

Peter Little - Emory University

In Africa, pathways to food production followed a unique trajectory: Cattle-based pastoralism developed on the continent long before any indigenous agriculture. In Africa, therefore, any study of early food production must focus on questions related to relatively high mobility rather than on settled village life.
