So we bought our daughter an iXL, and Kai-Lan software. So we installed the base software and now it keeps trying to download software updates before it will let us install the extra software. It gets about 10% in on the auto DL before it says we've lost our internet connection. On both me and my fiance's computer, and we even took it to our MILs and it keeps doing the same thing on her ...

No such file or directory This console entry suggests that the file generating the log entries is a "launch agent" named com.fisherprice.iXLagent.plist which is trying to launch a component of the iXL application and cannot find it, after which it keeps trying again. Deleting this .plist file and restarting would likely stop this cycle.

Ok I have read on here all of the questions and answers regarding this iXL from Fisher Price. I was having the same problems as everyone else until I followed someone's link and was able to turn off the automatic updates (life saver) and then download the Toy Story game. But once I unzipped the Toy Story file and transferred it over...the story part doesn't show up on the iXL!
