Fujifilm FinePix A330 digital camera | Full Specifications

The Fujifilm X100 is a series of digital compact cameras with a fixed prime lens. The series includes the FinePix X100, X100S, X100T and X100F. They each have a large image sensor and a 23 mm lens (35 mm equivalent angle of view in full frame format). All four cameras have received generally positive reviews.

Fujifilm X100 - Wikipedia

Compact Body. Fujifilm's newly developed 3-step collapsible lens has enabled the compact storage of a huge 36x zoom lens in this small body. This is a particularly portable camera, ensuring long-zoom magnification photography can be instantly accessible at all times.

The Fujifilm FinePix X100 was a milestone camera in the industry as one of the first large sensor, prime lens cameras to achieve widespread popularity. Its classic looks, obviously cribbed from a certain German camera maker, were justified by the excellent image quality its 35mm equivalent f/2 lens could produce. It was also a

When Fujifilm announced its FinePix X100 retro-styled large-sensor compact at Photokina 2010, it captured the imagination of serious photographers in a way the company seemed not to have quite anticipated. The X100's combination of 'traditional' dial-based handling and outstanding image quality brought widespread plaudits, making it something of a cult classic despite its undeniable flaws.
