BANGKOK, Thailand, Oct 25 (IPS) - The tobacco industry's new rhetoric that smoking is harmful and that its so-called less risky products will reduce the global tobacco epidemic, should see the industry stop opposing or fighting government efforts to reduce tobacco use.

Tobacco — Global Issues

Smoking during pregnancy also causes harm to the fetus. [5] In addition to adverse effects on individual- and population-level health, smoking imposes an immense financial burden on society, with over 480,000 premature deaths, over \$170 billion in lost productivity costs, and at least \$133 billion in direct medical care expenditures in the United States each year. [6]
