Grandmother Fish: A Child's First Book of Evolution by ...

Grandmother Fish: A Child's First Book of Evolution was written by Jonathan Tweet. The book explains Charles Darwin's theory of common descent and its target audience is 3-5-year-olds. It uses a call-and-response interaction between speaker and listener, where the child is asked to mimic the behavior of various animals from our evolutionary past. The book is illustrated by Karen Lewis with colored artwork. Grandmother Fish takes children and adults through the history of life on our planet ...

Grandmother Fish - Wikipedia

GRANDMOTHER FISH: A CHILD'S FIRST BOOK OF EVOLUTION follows the evolution of animals from fish to reptile to mammal, then zeros in on ape and human. It calls our earlier animal ancestors our "grandmothers," then names some "grandchildren" that sprouted off those branches of our family tree.
