Guided Discovery in Action | Responsive Classroom

Guided-discovery problems are ideal for group work. It is best to organize the students into groups of three to five with an even distribution of strong, average and weak students. Instruct them to work together as a team, making sure every member of the team understands the answer to each question before moving on.

How to Use Guided Discovery Problems

First Lesson Plan - This lesson plan deviates heavily from the original guided discovery model. It even goes so far as to forgo the use of examples and nonexamples. Students are also given a little less guidance until the end of the lesson. Second Lesson Plan - This lesson plan does not use nonexamples.

Guided Discovery - Teaching models

A large part of the teacher's role in guided discovery has to do with the planning stages of the lesson.

This technique requires the teacher to select tasks at the appropriate level for the learners, and to manage or structure the lesson so that all learners are engaged and active throughout the tasks.

Teaching Grammar With Guided Discovery: An Interactive ...

Guided discovery is a focused, purposeful, yet playful technique teachers use to introduce materials, areas, or activities to students. A teacher might use a guided discovery to introduce a learning center, such as the library or computer area; a specific material, such as a box of crayons or compass; or a process, such as journal writing or quiet time.

Back-to-School: Guided Discovery - Second Story Window

In guided discovery activities, the teacher provides learners with the chance to be exposed to and analyse language in order to help them understand the rules by themselves. By using a task, questions or awareness-raising activities, students are led to identify the use, meaning, form and pronunciation of the target language.

What is Guided Discovery? Guided Discovery is an approach that removes you, the teacher, from the main role of “explainer” and extends to the students the opportunity to question and discover the target grammar. When they have done that, they can then construct their own knowledge of what it means and how it is used.
