He M 1000ah Bandsaw Manual
About he&m saw. HE&M Saw was founded in January 1964 by Gerald R. Harris in Livermore, California. Having worked his way through engineering school and tool instrument training, he gained a first-hand knowledge of a variety of machinery during the post World War II industrial boom. That was the beginning of HE&M Saw.

If you install 1kW of panels for \$2000, that generate maybe 4kWh per day and last for 20 years, their energy costs around 10c/kWh - 1/10th the cost of storing this energy in batteries (I recognise I'm ignoring various real costs such as regulators and inverters - I'm trying to get the principle here).
To summarise: storing energy in batteries costs way more than generating it.
