Health promotion by nurses will work well through efficient and concrete community action. The nurse who is promoting health should help the community to set its priorities, plan strategies to achieve them and end with implementation to achieve better health.

Nursing Health Promotion Strategies

Search Tips. Phrase Searching You can use double quotes to search for a series of words in a particular order. For example, "World war II" (with quotes) will give more precise results than war II (without quotes). Wildcard Searching If you want to search for multiple variations of a word, you can substitute a special symbol (called a "wildcard") for one or more letters.
