The tables here contain Ingersoll Rand dryer fault codes or problem air compressor descriptions. There are also possible causes of issues related to air temperature, pressure, dryer settings, insufficient rate and so on. The lists contain issues which may happen with different Ingersoll models.

Ingersoll Rand Air dryer troubleshooting: Ingersoll Rand ...

Ingersoll Rand offers a variety of compressed air treatment products that are reliable for your compressed air system, sized correctly depending on your air compressor. From refrigerated compressed air dryer, to desiccant compressed air dryers, to compressed air filters, we have all the air treatment you will need.

Air Compressor Dryers | Air Compressor Filters

HL heatless desiccant dryers use twin desiccant towers with strategically positioned valves to dry compressed air. The simple technology of heatless dryers divert a portion of dried compressed air to an off-line tower. The dry air then flows through and regenerates desiccant. Although operating costs run higher than the heated desiccant dryers, the HL series requires the lowest capital investment.

Heatless Desiccant Dryers 2.5-142 m³/min, 800-5,000 cfm

EH desiccant dryers deliver extremely high-quality air at a -40°C pressure dew point for the most critical applications. EH dryers utilize an external heater to heat dry purged air diverted from the air system to regenerate desiccant. This reduces the amount of compressed air needed for regeneration by half as compared to heatless dryers, reducing operating costs.

Externally Heated Desiccant Dryers 4.2-226 m³/min, 150 ...

Compressed-air lubricators reduce wear on pneumatic components. Compressed-air regulators monitor air pressure exiting the compressor. Air dryers (such as desiccant, membrane, and regenerative air dryers) remove water vapor and oil aerosols to provide a clean, dry compressed-air stream.

INGERSOLL RAND Compressed Air Treatments - Air Dryers ...

Perfect for outdoors or low ambient applications, Ingersoll-Rand's modular air dryers make it easier and more affordable than ever to deliver high-quality compressed air. This dryer helps prevent corrosion and minimizes production disruptions or losses due to moisture or contamination. And, because noise levels are so low (<75 dB) and the dryer's remote exhaust feature offers further enhanced noise suppression, the unit can be installed right in the work environment.
