About one-third of the world's population lives in countries with moderate to high water stress, and problems of water scarcity are increasing, partly due to ecosystem depletion and contamination. Two out of every three persons on the globe may be living in water-stressed conditions by the year 2025, if present global consumption patterns continue (1).

### **WHO | Water, health and ecosystems**

ENVIRONMENT AS THE 'THIRD TEACHER' Quality Area 3 | The environment as the 'third teacher' Contemporary theories and research informed by the Reggio Emilia approach recognise and value the environment as a 'third teacher'. Behind educators and families, physical spaces hold the potential to influence what and how children learn.
