"Lost in Space" était l'une de mes séries télévisées préférées lorsque j'étais enfant. Ce livre me rappelle bien des souvenirs avec des photos inédites et des anecdotes racontées par Bill Mummy et Angela Cartwright qui interprétaient les rôles de Will Robinson et de Penny Robinson dans la série. À recommander aux fans de cette série extraordinaire.

The lost+found directory (not Lost+Found) is a construct used by fsck when there is damage to the filesystem (not to the hardware device, but to the fs). Files that would normally be lost because of directory corruption would be linked in that filesystem's lost+found directory by inode number. Some of these might be lost directories or lost files or even lost devices.
