BHP seeks buyers for coal mines, oil fields in portfolio ...

The company is believed to have struggled to find a buyer for its Mt Arthur coal mine on its own because of the depressed thermal coal price. "Given our focus on hard coking coal, these assets [thermal coal and lower quality coking coal] would better compete for capital outside of BHP," it said.

BHP to continue to optimise Mt Arthur - MiningMonthly.com

The report said three main factors influenced the price a buyer would pay for Mount Arthur: the remaining life of the seaborne coal market in the face of ever-cheaper renewable power, the near-term coal price, given the mine was losing money at present prices, and the cost of remediating the mine's "4266 hectare hole in the ground".
