Natural law, system of right or justice held to be common to all humans and derived from nature rather than from the rules of society (positive law). Its meaning and relation to positive law have been debated throughout time, varying from a law innate or divinely determined to one determined by natural conditions.

#### natural law | Definition, Theory, & Ethics | Britannica

Natural law (Latin: *ius naturale*, *lex naturalis*) is law that is held to exist independently of the positive law of a given political order, society or nation-state. As determined by nature, the law of nature is implied to be objective and universal; it exists independently of human understanding, and of the positive law of a given state, political order, legislature or society at large.
