Nephrology, or kidney medicine, is a specialty care service provided by the Veteran's Health Administration (VHA) which includes the care of patients with acute or chronic kidney disease including dialysis.

VHA National Kidney Program - Veterans Health Administration

Non-inferiority of clinical outcome with reduced treatment burden therefore provides a powerful argument in favour of incremental schedules. Additional benefits may exist: incremental haemodialysis schedules have also been associated in some observational studies with reduced residual kidney function [52, 53].
