It's easy to search Wikibooks by topic, and there are separate sections for recipes and childrens' textbooks. You can download any page as a PDF using a link provided in the left-hand menu, but unfortunately there's no support for other formats. There's also Collection Creator - a handy tool that lets you collate several pages, organize them, and export them together (again, in PDF format). It's a nice feature that enables you to customize your reading material, but it's a bit of a hassle, and is really designed for readers who want printouts. The easiest way to read Wikibooks is simply to open them in your web browser.

Problem 2.7 Let $G = \{x\}$ be the set of global minimums of our function $f(x)$.Then this means that $f(x_i) \leq f(x)$, for all x and each $x_i \in G$. In that relationship take $x = x_j$ for $j \neq i$ and conclude that $f(x_i) \leq f(x_j)$.We could do the same thing with i and j switched to show that $f(x_j) \leq f(x_i)$. This means that $f(x_i) = f(x_j)$ and thus all global minimums must have the same function
