10g/11g Database

Administration I ...

The second database is a regular 11g database. So this shows the inter-version upward compatibility between a 10g and an 11g database.

```
SQL> select count(*) from
```

Access Free Oracle 10g11g Data And Database Management Utilities

```
dp_employees; COUNT(*) -----  
107
```

Inter-version compatibility. In, the previous example a 10g data pump generated an External Table that was transparently read by the 11g release.
