### Oracle® Exadata Database Machine System Overview

Oracle Autonomous Database. Oracle Autonomous Database, the world's first self-driving database, is powered by Oracle Exadata and is the basis of the groundbreaking Oracle Autonomous Data Warehouse and Oracle Autonomous Transaction Processing cloud services.

### Exadata Database Machine | Oracle

Oracle Exadata Database Machine consists of database servers, storage servers, and the network components to connect to your network. Oracle Exadata Database Machine is available in flexible configurations that consist of a number of database and storage servers up to the capacity of the rack as defined using OECA.

### Hardware Components of Oracle Exadata Database Machine

Oracle Exadata Database Machine is engineered to be the highest performing and most available platform for running Oracle Database.. Oracle Exadata Database Machine and Oracle Exadata Storage Expansion Rack are hardware systems that consist of multiple components. This chapter provides an overview of Exadata systems, and usage information
