In many countries, civil registration and vital statistics systems are underfunded and understaffed. Registration services are inaccessible to people living in rural areas and the quality of services remain poor, therefore coverage and completeness of civil registration are very low in almost all countries.

Civil registration is a process whereby major vital events occurring in a population are officially recorded. It is defined by the United Nations as 'the continuous, permanent, compulsory and universal recording of the occurrence and characteristics of vital events in a population', in accordance with the legal requirements of the country.

What is civil registration?

Civil Registration System

Online Library Status Of Civil Registration And Vital Statistics In The

popularly known as birth and death registration system is the recording of vital events i.e. live births, stillbirths and deaths under the statutory provisions on continuous and permanent basis. The registration records are useful primarily as legal documents and secondarily as a source of statistics.
