The Anatomy of Human Destructiveness | Erich Fromm | download

Hailed as an "original and far-reaching contribution" to psychoanalytic theory and social thought, this is Fromm's ambitious and rather complicated rebuttal of Lorenz' innate aggressive instinct, built upon an amended version of the Freudian dichotomy between Eros and Thanatos. Animals act by instinct but people have "character-rooted passions," an inner map which mediates and is largely ...

THE ANATOMY OF HUMAN DESTRUCTIVENESS by Erich Fromm ...

On the other hand, malignant aggression, or destructiveness, in which man kills without biological or social purpose, is peculiarly human and not instinctive; it is one of the passions, like ambition or greed.

The anatomy of human destructiveness (Book, 1973 ...

The Anatomy of Destructiveness, Fromm's last scholarly work, published in 1976, was his attempt to answer the question of man's lust for cruelty. (He admits that in order to undertake a complete review of the subject would have taken him three more decades, thus this review of his book is from its conception incomplete.)

The Anatomy of Human Destructiveness Quotes Showing 1-20 of 20 [Critical and radical thought will only bear fruit when it is blended with the most precious quality man is endowed with - the love of life]

The Anatomy of Human Destructiveness Quotes by Erich Fromm

Fromm's response, in both The Sane Society and in The Anatomy of Human Destructiveness, argues that Freud indeed deserves substantial credit for recognizing the central importance of the unconscious, but also that he tended to rectify his own concepts that depicted the self as the passive outcome of instinct and social control, with minimal volition or variability. Fromm argues that later scholars such as Marcuse accepted these concepts as dogma, whereas social psychology requires a more ...

The Anatomy of Human Destructiveness : Erich Fromm ...

[The Anatomy of Human Destructiveness] is a hodgepodge of Fromm's old and new ideas and the thinking of selected others. It thus suffers from theoretical fuzziness.

Driven by a desire for sheer destruction - The New York Times

As human beings, we are apart from nature by virtue of being conscious of it - the non-conscious being has no such problem. We are adrift, severed from the umbilical cord and left alone in this world, being burdened with our own mortality and impending shift into non-existence, we are the only species who require a solution to this peculiar dilemma of being alive.
