[PDF] The Animation Book: A Complete Guide to Animated ...

This book is a bit dated but most of the info in it is timeless. As a former computer animator, I picked this up out of interest without any expectations. I found it an incredible guide to animation, as complete as you could hope in any book. The author covers all aspects of the art and gives a fairly good rundown of each technique.

The first edition of The Animation Book, published in 1979, became the

authoritative guide to making animated movies. Now, as we enter the twenty-first century, the explosion in computer technology has created a corresponding boom in animation. Using desktop hardware and software, animators can easily produce high-quality, high-artistry animation and mix the aesthetics of traditional cel ...

The Animation Book: A Complete Guide to Animated ...

The Complete Kodak Animation Book is a rather dated history and how-to book of film animation. The 1983 technology is of course hopelessly out of date, although it gives a good grounding in the history and standard practices of animation up to then. The book has a late Cold War aesthetic that it clearly thinks encompasses everything.
