The Mongol weapon of choice was the composite bow, which could fire arrows double the distance of those in competing armies. In addition, warriors could shoot with accuracy while riding their horses at speed thanks to stirrups and wooden saddles with a high back and front which gave better stability so that an archer could turn and fire in any direction, including behind him.

The Bible tells us that King Cyrus II freed the Jews held captive in Babylon, allowing them to return to Jerusalem and rebuild God's temple, which the Babylonians had destroyed in 607 B.C.E. (Ezra 1:1-7; 6:3-5) Corroborating this account is a clay document known as the Cyrus Cylinder, discovered in 1879 in the ruins of ancient Babylon. The inscription identifies Cyrus by name and describes ...
