Five functions of law Flashcards | Quizlet

Law is a formal means of social control. Society uses laws (rules designed to control citizen's behaviors) so that these behaviors will conform to societal norms, cultures, mores, traditions, and expectations. Because courts must interpret and enforce these rules, laws differ from many other forms of social control.

The Function of Law in Society

The first and foremost function of a legislature is to legislate i.e. to make laws. In ancient times, laws used to be either derived from customs, traditions and religious scriptures, or were issued by the kings as their commands. However, in the contemporary era of democracy, legislature is the chief source of law.

Legislature: Meaning, Functions and Types of Legislature

When discussing artifacts, the notion of function need not be as mysterious or problematic as might be the case with biological functions. The other claim is that the law is an institution, a specific kind of artifact that creates artificial roles which allow for the establishment and manipulation of rights and duties among those subject to the institution.
