Healthy Home: Simple Truths to Protect Your Family from ...

The amount of outdoor air that enters the home plays a major role in the effect these contaminants have on human health. If too little of this air enters the home, these pollutants can pose health risks. Because some weather conditions can reduce the amount of outdoor air that enters a home, pollutants can build up even more. 2

download The Healthy Home: Simple Truths to Protect Your Family from Hidden Household Dangers

Levels of brominated flame retardants in cats are up to 23 times higher than those found in human beings, and dogs have on average 2.4 times more perfluorinated chemicals in their bodies than people. 1 These are chemicals that are already found in products you buy, such as fire-proof fabrics and stain-proof rugs—just imagine how susceptible your dog or cat is to the chemicals you readily spray and pour in your home.

Pets and Household Cleaners | My Healthy Home

The Healthy Home is not a comprehensive tome on modern health hazards; nor is it a treatise on eco-conscious living. Instead, the book focuses on the most important environment—the home—and the problems that can most easily be lessened or eliminated.
