*There are two kinds of explanation of phenomena — scientific explanation in terms of laws of nature and initial conditions, or (on a preferable analysis of laws of nature) in terms of objects and their powers and liabilities; and personal explanation in terms of persons, their powers, intentions, and beliefs. Some observable phenomena are explained as brought about by persons, others as ...*

*The Nature of Explanation - Peter Achinstein - Oxford ...*

*So the nature of an explanation is to understand something – to have a working model of it. All explanations are incomplete because at some point they all must take something for granted. When you explain something to another person, “what is conveyed is a blueprint for the construction of a working model.”*

*The Nature of Explanation - fs.blog*

*A teleonomic explanation is similar to a teleological explanation in that its point of reference is an end state or a future behavior. The distinction between teleonomic and teleological is that teleonomic explanations accept that all causes are in the past, whereas teleological explanations consider the cause in the future.*
