The first screen of the system identifies a market tide; the second screen (the oscillator) identifies a wave that goes against the tide. The third and final screen of the triple screen system identifies the ripples in the direction of the tide. These are intraday price movements that pinpoint entry points for your buy or sell orders.

Third Screen Strategy - Dr. Alexander Elder @ Forex Factory

Also the screen resistance is lowered to 4.8 ohm per meter from 14.4 ohm per meter in classic First. The inner conductor is unchanged at 35 ohms. I found few reports where audiophile found First Ultimate much better focus and dynamics and more transparent, detailed with more top extension and sparkle compared to original First.
