Levin and Charon Langton.. These books have been a perfect addition to our Circle Time that we do daily.

### **Review: The Verbal Math Lesson, Books 1-3**

And to round out our coverage of core curriculum, we also received The Verbal Math Lesson, books 1 & 2. At first, I wasn't quite sure how this was going to go over. However, as I think about how frustrated my boys have been with math and one who currently is, I know that a good part of that stems from the inability to read and write well.

Kids don't hate math - they hate worksheets! Try the Verbal Math Lesson series to teach your child to do math mentally!

### **Verbal Math Lesson - Home | Facebook**

The Verbal Math Lesson is broken up into 3 books: Book 1 is intended for kids in grades K-1st, or roughly 4-7 years old. Book 1 is broken into 31 lessons, each taking about 10 minutes depending on your kid, and covers the very basics of elementary math. Lesson one covers the value of zero and by lesson 31 your child will be subtracting double digit numbers without borrowing.

## **The Verbal Math Lesson (a review) » Homeschool Gameschool**

The Verbal Math Lesson Level 1. Written math makes arithmetic tedious for young children, particularly for those who do not like to write. An insistence on worksheets that require more writing than math lead to a dislike for math in general. We want your child to enjoy math, and learn it as game. In this book, all problems are designed to be done verbally without any writing.
