Tiny House Living What You

Take a tour of our favorite tiny (but mighty!) homes. You heard it here first, folks: Living large (or even medium-sized) is officially a thing of the past! Settling in a tiny house is more than just a trend; it's a lifestyle choice that people all over the country are happily taking up.

86 Best Tiny Houses 2020 - Small House Pictures & Plans

There's no standard definition of what a "tiny home" is, but most folks who brand themselves as leaders of the tiny house living movement would say it's living in a home between 100 and 400 square feet, which is about the size of a studio apartment or smaller. While many tiny homes are on wheels, it isn't a requirement.

11 Things You Need to Know About Tiny House Living | Dolly ...

The tiny house movement is all about giving up the excess of physical space most of us have in our modern American homes in favor of living a more affordable, tractable life. In other words, it's a fairly serious way to implement and live out the tenets of minimalism – when you only have 500 square feet or less to work with, every single object in your life has to hold some special value.

What's it Really Like to Live in a Tiny House?

Tiny houses are currently a sort of national obsession, which is not really that surprising because they are a novel, sustainable way to live, and also they are adorable. But most writing on tiny houses focuses a great deal on how small and cute they are, and how tiny the bathroom is, and how clever it is to store stuff under the stairs, without spending much time examining what it's really like to live in one.
