TouchDown is as user-friendly as any other Android app and will keep you in sync with your work Exchange server from your phone at
far as how it ranks with the "other"...

Review: TouchDown mail client for Android - TechRepublic
Years ago I highly encouraged Android users to get the Touchdown app to manage MYN tasks when mobile. About a year ago I switche
recommendation to Nine for Android. Why the switch? The Symantec Touchdown management seemed a bit flaky about their new Andro

version that was in testing for over a year. Feature support was unclear.
