I did give the car an Italian tune up and that did clean up the tail pipe fumes for a few days. I am going to check the breather pipes. Does anyone know if the 7AFE 1.8 has a PCV valve ? as they can stick and cause Oil to be burnt. If the the breather pipes are clear and there is no PCV valve I am guessing I may have worn valve stem seals.

The A Series engines are a family of inline-four internal combustion engines with displacement from 1.3 L to 1.8 L produced by Toyota Motor Corporation. The series has cast iron engine blocks and aluminum cylinder heads. To make the engine as short as possible, the cylinders are siamesed. The 1A engine was only 550 mm (21.6 in) long. The development of the series began in the late 1970s, when ...

So i bought an 85 4runner last weekend and the truck has a bad miss, backfires when shifting, and has no power. It does have power if you get on it in first, it is almost like it kicks in, but as soon as you shift or let off the gas, it loses power again. The guy I bought it from said he took it to a toyota shop and they told him the 3 and 4 injector was out.
