The Tree Thinking Group is a loose association of people, including researchers, teachers and students, who are interested in teaching and learning evolutionary biology effectively. There are, of course, many groups that are interested in improving evolution education and you can find out about some of them on our resource pages. What makes this effort stand out somewhat is our focus on tree ...

Yet “tree thinking” remains widely practiced only by professional evolutionary biologists. This is a particular cause for concern at a time when the teaching of evolution is being challenged, because evolutionary trees serve not only as tools for biological researchers across disciplines but also as the main framework within which evidence for evolution
