Mosquito fly set comes with six flies all in size-12. This is a dry fly meaning that it is meant to sit on the surface of the water. This is one of the most commonly used flies for trout fishing. Another highly used trout fly is the Black Gnat which is very similar to the mosquito fly but is black.

While backpacking in the White Cloud Mountains this September we camped at Scoop Lake. While fishing that lake 3 of the four members of our group saw what appeared to be black trout over a period of 2 days. These fish were jet black, no other detectable color. They were not numerous, we saw occasional singles and two together only once. We have no pictures as we did not manage
