Book, Haynes Manual for Vespa 1959 - Scooter Mercato

Beginning in 1953 with the VN1-2, the Vespa 125 (VN1-2, VNA and VNB) scooters were Vespa's bread & butter models from the mid 1950s through the mid '60s. The later VNA 3-speed model was upgraded in 1959 to the 4-speed, rotary-valve induction VNB. Other than the engine upgrade, these models were practically identical.

Vespa Scooter Rotary Workshop Service Repair Manual

These motors were piston ported, but had the carburator sitting directly on the cylinder, similar to the G.S.'s design. They used a 5% two stroke mixture. By 1959, this system was gone in favor of the vastly superior rotary valve design. Bottom Line . The Vespa 150 is a robust scooter and capable of use on today's roads.

Essentially a license-built 1965 Vespa VLB 150 Sprint, the Chetak remained in production long after its Italian counterpart, gaining a 4-stroke engine in 2002. The first Chetak copied Vespa's earlier generation 145cc fan-cooled, rotary-valve engine, with breaker points ignition, 6-volt electrics and a kickstarter only.
