World Development Report 1988 World

This report includes the World Development Indicators, which provide selected social and economic indicators for more than 100 countries. Despite continued economic growth through 1987 and into 1988, two problems have characterized recent trends: unsustainable economic imbalances within and among industrial countries, and highly uneven economic growth among developing countries.

World development report 1988. (Book, 1988) [WorldCat.org]

The World Development Indicators is a compilation of relevant, high-quality, and internationally comparable statistics about global development and the fight against poverty. The database contains 1,600 time series indicators for 217 economies and more than 40 country groups, with data for many indicators going back more than 50 years.

WDI - Home - World Development Indicators

In 1978, the first World Development Report introduced groupings of "low income" and "middle income" countries using a threshold of \$250 per capita income as threshold between the groups. In the 1983 WDR, the "middle income group" was split into "lower middle" and "upper middle" groups, and in 1989 a "high income" country definition was introduced.

According to the most recent estimates, in 2015, 10 percent of the world ' s population lived on less than \$1.90 a day, down from nearly 36 percent in 1990. Progress has been uneven, and the number of people in extreme poverty remains unacceptably high. Given growth forecasts, the world is not on track to end extreme poverty by 2030.
